

BRAINERD DAILY DISPATCH.

OLUME 6, NO. 110.

BRAINERD, MINN., THURSDAY, OCTOBER 11, 1906.

PRICE TWO CENTS

DO SUCCEED FUNSTON

GENERAL BELL WILL TAKE COMMAND OF UNITED STATES FORCES IN CUBA.

COLLEGE HE DESERTED THEM

ANY CUBANS ASSERT FUNSTON QUIT THEM DURING THEIR WAR WITH SPAIN.

Havana, Oct. 11.—General Frederick Funston will not continue in command of the American forces in Cuba. Governor Taft has announced that he and General Funston would leave Saturday for the United States on the battleship Louisiana. With them will go Assistant Secretary of State Bacon, and the affairs of Cuba will be left in the hands of Governor Magoon and General J. Franklin Bell. In explaining this, Governor Taft said:

"General Funston was summoned on a hasty call from the Pacific coast because he was well acquainted with any of the insurgent chiefs here and was thought he could aid us, as he did greatly, in bringing the men in arms to an agreement. General Funston was put temporarily in command of the troops in Cuba merely as a convenience until General Bell should arrive. General Funston, Mr. Bacon and myself are returning to our permanent duties."

Governor Taft's confidence in General Bell's ability to carry out the programme of regeneration resulted in his decision to continue him in the land.

Many Cubans of the faction to whom General Funston and others who organized the Moderate party belong, were outspoken against General Funston, alleging that he had deserted them in their war against Spain. Governor Taft did not take cognizance of his bitterness, as he was familiar with the circumstances under which General Funston at that time, returned to the United States. He had the consent of General Garcia and other leaders.

Would Have Commanded Brigade.

Had the proposition to send the three expeditions to Cuba been carried out, General Funston would have remained at Camp Columbia as the commander of the brigade. The close association between Governor Taft and General Bell in the Philippines influenced the provisional government to ask that General Bell be placed in charge here.

Twenty-five marines have been ordered to proceed to Sancti Spiritus and Trinidad. At the latter place they will settle the friction between former rebels and former militiamen who have recently been disarmed. The trouble was caused when Colonel Glynn of the militia, who is also collector of customs, rearmed the militia after the departure of disarmament commissioners.

General Rodriguez, commander of the rural guards, telegraphed Colonel Glynn to disarm these men. This was done but Glynn is reported still to have the guns in his possession and to be disposed to make trouble. These reports are confirmed. Governor Taft will remove Glynn. General Brava, commander of the insurgents in that vicinity, maintained good faith with the commission, even taking revolvers and machetes from his men.

Two cases of yellow fever at Cruces, in addition to the recent death there, has decided Governor Taft not to send the marines back to that camp.

VERY UNSATISFACTORY.

Progress of Disarmament at Camaguey Is Interrupted.

Camaguey, Cuba, Oct. 11.—The progress of disarmament here is very unsatisfactory. A proclamation is issued by the mayor of the town prohibiting the gathering of four or more persons on the streets prevents the rural guards from going ahead with the work of disarming the volunteers.

General Machado and the members of his staff, who disbanded Wednesday morning and came into Camaguey with the intention of accompanying the disarmament commissioners to their homes in Santa Clara, retired immediately when they learned local conditions and voiced their unwillingness to disband under such circumstances.

Body of Suicide Found.

Chisholm, Wash., Oct. 11.—The dead body of John H. Spitzner, a sausage maker, has been found in the woods near town. He had shot himself soon after an attempt to kill Judge Moses Yoder and family, and undoubtedly died in the belief that he had killed the attorney, who had assisted his wife in securing a divorce.

MUCH LEGAL ARGUMENT.

But Little Actual Progress Made in Standard Oil Suit.

Findlay, O., Oct. 11.—Much legal argument and little actual progress marked the second day of the trial of the Standard Oil company of Ohio for conspiracy against trade. The argument was caused by the objection of attorneys for the Standard Oil as to the character of evidence introduced by the prosecution. In every instance, however, the ruling of Judge Banker favored the prosecution.

The result was that the testimony of John D. Rockefeller given in 1898 in the litigation against the Standard Oil company before the supreme court of the state was admitted and carefully read to the jury by Attorney Phelps for the prosecution. This consumed the morning session and part of the afternoon.

Mrs. Ida M. Butts was the first witness of the trial. Mrs. Butts said she was the step-daughter of the late George M. Rice, an independent oil refiner of Marietta, O. She had acted as Mr. Rice's private secretary and was the executrix of his estate. She produced at the request of Attorney Phelps the certificates of "original trust" stock owned by Mr. Rice, the certificates of "legal title" into which these were later transferred and scrip showing title to fractional shares of stock in all of the original twenty subsidiary companies. The text of these certificates was read into the record and Mrs. Butts was excused.

The final wrangle of the day then commenced and lasted until adjournment.

GET SWEET REVENGE

CHICAGO NATIONAL LEAGUERS WIN SECOND GAME OF CHAMPIONSHIP SERIES.

Chicago, Oct. 11.—In the second game of the world's championship series, the Chicago National league team took revenge for Tuesday's defeat when they vanquished the American league team on the latter's grounds, 7 to 1.

White, and Owen, who replaced him in the fourth inning, were batted freely, and errors also helped to increase the National's score. Reulbach was in fine form and allowed the opposing batsmen only two hits.

The weather was bitterly cold, the mercury hovering at or below the freezing point all afternoon. A few flakes of snow fell, but they were not needed to add to the general discomfort.

Between 9,000 and 10,000 enthusiasts braved the rigors of the weather. With frost nipping fingers and toes, perfect baseball was an impossibility.

The Nationals started the trouble in the second inning. Captain Chance received an ovation as he stepped to the plate, but he struck out. Then Steinfeldt sent a scorching single to left. Tinker bunted and beat it to first. Steinfeldt reaching second.

Tossed the Ball into Left Field.

Evers rolled an easy one down to Isbell who in his haste to make a double play tossed the ball into left field. Steinfeldt scored. Tinker took third and Evers perched on second. White allowed Kling to walk, but Reulbach sacrificed Tinker home and Evers scored a moment later on Hoffman's safe drive. Kling was out at the plate. The half closed with three runs over the plate.

The next run for the Nationals came when Chance was safe on a fielder's choice. He stole second and went to third when Isbell failed to hold Sullivan's bad throw. He scored on Steinfeldt's second clean single.

The Americans' lone tally came in the fifth when Dougherty was safe on a fielder's choice. He took second on a wide pitch and scored when Tannehill's grounder went past Tinker, who was confused by the base runner.

In the sixth two singles, a double steal by Tinker and Evers, and Sullivan's wild throw to third, the ball rolling into the crowd, let Tinker across the plate. In the eighth two more tallies resulted from Chance's single, Steinfeldt's sacrifice, Chance's steal to third and Tinker's single.

Tinker stole second, went to third on Evers' out and came home on a wild pitch.

Steinfeldt's batting and Reulbach's pitching were easily the features of the game.

Cossacks Sold Arms to Rebels.

Warsaw, Oct. 11.—The police in the suburb of Praga have discovered an arsenal from which Cossacks had been selling government arms to revolutionists.

Three Cases of Yellow Fever.

Havana, Oct. 11.—Major Kean of the medical department says that there is only one case of yellow fever in Havana, two in Cruces and none elsewhere.

LARGE FIRM ASSIGNS

LIABILITIES OF J. M. CEBALLOS & CO. MORE THAN THREE MILLION DOLLARS.

HAVANA AGENT A DEFALUTER

ABSCONDS WITH A MILLION DOLLARS AND CAUSES FAILURE OF NEW YORK FIRM.

New York, Oct. 11.—The assignment of J. M. Ceballos & Co., bankers and merchants, with liabilities between \$3,000,000 and \$4,000,000, has just been announced. The statement declared that the failure was due to the defalcation and absconding of Manuel Silveira of Silveira & Co., Havana agents of the New York company. Silveira's defalcation is alleged to amount to about \$1,000,000. He sailed from Havana Oct. 2 ostensibly to consult here with the members of J. M. Ceballos & Co., but has not reached this city. Counsel for the assignee said that Silveira has left on his own steamer, the Carmelina, for parts unknown, accompanied by his wife and children and that every effort was being made to locate him.

The members of the firm of J. M. Ceballos & Co. are J. M. Ceballos, John S. Fisk and Anderson C. Wilson. The assignee is William V. Rowe, a lawyer. Mr. Rowe said that the assets of the firm are of a substantial character, but from a hasty examination it is manifest that they will require careful husbanding. Accountants are now at work on the books of the company. It was stated unofficially that there is ground to hope that the assets will be sufficient to cover the losses and that the firm may be enabled to resume.

Established Fifty Years Ago.

J. M. Ceballos & Co. was established about fifty years ago and has large interests in Cuba, chiefly in the development of railroads and sugar plantations. It operates a line of steamers between New York and Spanish ports and has connections in Spain, European centers and Spanish-American cities.

William Nelson Cromwell, counsel for the assignee, stated:

"Messrs. Ceballos & Co. having no premonition of this conduct of their agent, and confronted with this large loss and the deprivation of their current resources, have, in this emergency, deemed it just to all having relations with them that they would make a general assignment without preference. It is impracticable at the moment to make an intelligent statement of their assets and liabilities. In a general way the liabilities are between \$3,000,000 and \$4,000,000. The accountants are at work and we will be able within a few days to make a full statement."

OVER HIS BUSINESS AFFAIRS.

Manuel Silveira Said to Have Been Worried.

Havana, Oct. 11.—Jose Beola, a wealthy sugar planter and silent partner of Manuel Silveira, said that Silveira had sailed on board the Carmelina for New York on Oct. 2, accompanied by his two daughters. He took the cattle ship for the purpose of having a slow trip and to avoid detention in quarantine in New York. He had heard nothing of Silveira since his sailing.

Other persons familiar with Silveira's affairs declare that previous to sailing he appeared to be worried over business affairs, as well as over many anonymous letters threatening him with death because he was suspected of having been the direct cause of the killing of Quintin Banderas, through having informed the government of Banderas' whereabouts. Banderas had been operating over property owned by Silveira.

TWO BARGES WRECKED.

Driven Ashore on Bass Island During the Recent Storm.

Bay City, Mich., Oct. 11.—The barges Abram Smith and Comstock were wrecked on Bass Island in the Georgian bay region during the recent storm. The boats were in tow of the steamer Langell Boys and it is understood were driven on the rocks, the steamer rescuing the crews. The boats were owned by Eddy Bros. and the John T. Ritchie estate of Bay City. Both boats were uninsured.

WILLING TO PLEAD GUILTY.

Bridgeport, Conn., Oct. 11.—"It's all up; I'll plead guilty," said George W. Cornwell, charged with the theft from Mrs. Johanna Lumpkin of bonds and jewels amounting to \$11,000. He caused a dramatic ending of the trial in the criminal superior court here. Cornwell's action followed a detailed statement of Judge Edward K. Nicholson of the city court as to his connection with the case.

Two Shot-Firers Killed.

Springfield, Ill., Oct. 11.—In an explosion in the mine of the Springfield Collieries company north of here two shot-firers were killed. The victims were John Stadden, aged forty-five; Thomas Hiscock, aged forty-four, both of Springfield.

Three Cases of Yellow Fever.

Havana, Oct. 11.—Major Kean of the medical department says that there is only one case of yellow fever in Havana, two in Cruces and none elsewhere.

ALONG LOWER LAKE REGION.

Weather Bureau Announces Light Snowfall Will Continue.

Washington, Oct. 11.—The weather bureau announced that Wednesday it was approximately twenty degrees colder than Tuesday in the states east of the Mississippi river and that a light snowfall doubtless would continue in the states along the lower lake region. Snow is falling along the Great Lakes. The Western area of high pressure is fast giving way and a fresh disturbance is moving eastward on its rear, the center being north of Montana. The Eastern storm is passing off New England over the Canadian maritime provinces. Snow or rain is expected near Lake Erie and snow flurries are expected in the east part of Pennsylvania.

The Western area of high pressure has overspread the central valleys and southern districts with heavy and killing frosts in the Mississippi valley north of Memphis. Light frost also occurred in Oklahoma, Eastern and Central Tennessee, and heavy frost in Northwestern Arkansas.

HEAVY SNOW IN INDIANA.

All Records for Early Storms Broken in That State.

La Porte, Ind., Oct. 11.—The record in Indiana for early snow storms was broken Wednesday when according to the government observer here six inches of snow fell during the day. At Stillwell, seven miles south of La Porte, the fall was the heaviest in this section, measuring fourteen inches on the level. Running of railroad trains and electric cars was affected.

Snow Damages Crops.

Lexington, Ky., Oct. 11.—Snow fell throughout Kentucky Wednesday and reports received here show that great damage to tobacco crops in barns and fields and late corn is resulting.

RESOLUTION IS ADOPTED.

Proclaims the Impossibility of Passive Resistance.

Helsingfors, Oct. 11.—At the day's session of the Constitutional Democratic conference the central committee's resolution proclaiming the impossibility of passive resistance was adopted, 84 to 44. The minority amendment recommending organization for passive resistance was rejected, 88 to 53.

The congress has shown a structural weakness in the party which is highly dangerous in view of the approaching electoral campaign, and this in spite of the influence toward cohesion resulting from governmental persecutions.

DISSENSION IN CABINET.

Russian Premier and the Finance Minister at Loggerheads.

St. Petersburg, Oct. 11.—There are persistent rumors of dissensions in the cabinet between Finance Minister Kokovoff and Premier Stolypin, on account of a general conflict of views and particularly the publication of M. Kokovoff's letter concerning the state of Russian finances to the premier, which was published in the Paris Temps Oct. 4. This letter has been traced to a high source in the ministry of finance. It is said this conflict may force Kokovoff out of the cabinet, but the rumor cannot be confirmed.

BEFORE THE SUPREME COURT.

Arguments Made in the Cases of Moyer, Haywood and Pettibone.

Washington, Oct. 11.—The supreme court of the United States heard arguments Wednesday in the cases of Charles B. Moyer, W. D. Haywood and George A. Pettibone, officers and members of the Western Federation of Miners, who are in prison in Canon county, Idaho, under a charge of murdering former Governor Steunenberg of that state. The case comes to this court on an appeal from the decision of the Idaho federal court refusing to grant writs of habeas corpus. The principal point in controversy was the method by which the Idaho authorities secured jurisdiction over the men, who are residents of Colorado. It was alleged on behalf of Moyer and his associates that they were kidnapped in pursuance of a conspiracy to which the governor of Colorado and the Idaho authorities were parties and hence that jurisdiction was acquired by fraud.

CHILD RUN OVER BY A TRAIN.

Wisconsin Girl's Father Is Brakeman on Freight That Killed Her.

La Crosse, Wis., Oct. 11.—Struggling but helpless, with her foot caught in a cattle guard at the Indian Hill crossing, seven-year-old Mamie Hunt watched the coming of the Northwestern freight train which was to kill her, while Degna Senstad, her six-year-old companion, vainly tried to signal the engineer. Sitting complacently on a brake wheel upon the top of the train was John Hunt, Mamie's father a brakeman, unconscious that his child was being ground to death beneath the wheels.

The little girl was returning from school when the child's foot became wedged in the cattle guard.

The Hunt girl's body was cut in two at the hips and she died within half an hour.

"La Veda"

A whalebone Corset

We are showing the La Veda whale bone corset made by the W. B. manufacturers. It is a garment that fully conforms to the late vogues in dress and is perfect in its form fitting qualities.

If you want a good high grade corset see this number. Our Miss Fuller will give you a fitting without cost to you.

"Mocha gloves

For serviceable wear

A good Mocha glove is not equaled for wear. We have "Adlers" and other meritorious qualities. These we show in the best colorings and we guarantee you satisfaction. \$1.50 the pair.

Ribbons

Have you seen equals?

If for art needlework or for the hair you must see our assortments to secure the chic styles. Our assortment represents the choice numbers from a number of sources. Especially desirable are the wide ones for art needlework.

Why spend time and extra money for P. O. money orders, express money orders or bank drafts? Let me have your subscriptions or renewals. If a magazine is a dollar a year, it will cost you but a dollar. A postal card will bring you our combination catalogue on all magazines and periodicals. Some combinations are awfully cheap.

UNION & LABOR

THURSDAY, OCTOBER 11, 1906.

Weather

Forecast—Partly cloudy tonight and Friday, rising temperature.

THE Duluth Herald publishes twenty-five reasons why Governor Johnson should be re-elected. In the bunch there is not a single reason given that would not apply equally to Hon. A. L. Cole, or credit is claimed for Governor Johnson for some measure passed by a republican legislature, or some service performed by republican state official.

The nerve of Governor Johnson's friends in claiming credit for things done by other state officials will disgust the average voter and lose the governor votes.

THE question of supplying free text books will come before the voters of this city at the coming election. Like all matters there are two sides to the question. The friends of the measure say that education will not be entirely free and provided by the public until the public supplies the text books also. That large childless tax payers will be compelled to assist in this manner to help defray all the expenses of educating the young. The opponents of the measure on the other hand say that it will increase taxation and no one will be benefited except the transient population that owns no property and pays no taxes and intend to live here only while they are temporarily employed. It is a question the voter should investigate thoroughly before casting his ballot.

LOCAL NEWS NOTES.

M. H. Heckler, of White Bear, was in the city last night.

Dr. V. Falconer, of Aitkin, was at the Ransford last night.

Invalid chairs for rent at D. M. Clark & Co. 261tf

VERY HANDSOME HOME WEDDING

Miss Grace M. Russell and Mr. George C. McDonald Married Last Night.

ABOUT SEVENTY WERE PRESENT

House was Handsomely Decorated with Potted Plants, Smilax and Evergreens.

A very handsome and elaborate wedding occurred at the home of Engineer Tom Russell, 817 Mill street last evening. The pleasant and auspicious event witnessed the uniting in bonds of holy matrimony of Miss Grace M. Russell, daughter of Mr. and Mrs. Tom Russell, and Geo. C. McDonald. The house was very tastily decorated with potted plants, smilax and evergreens, the color scheme in the decorations being pink and white. About 70 relatives and friends of the contracting parties gathered for the ceremony which was performed by Rev. J. E. Berry at 9 o'clock.

The bridal party took their places to the strains of a wedding march played by Miss Effie Drexler.

The bride was beautifully arrayed in white mousseline silk with trimmings of Irish lace and carried white carnations. Miss Fillie Kellahan was bridesmaid and was gowned in blue silk trimmed with lace and carried pink carnations. John McGuire, a half brother of the groom, was best man. Both were in conventional black. Misses Alice, Millicent and Murrell Russell, sisters of the bride were flower girls, while Misses Pearl and Ruby Kellahan, Rose Hamilton and Tessie O'Brien were ribbon girls.

After the ceremony and attendant congratulations the assembled company sat down to a sumptuous and elaborate three course wedding banquet, covers being laid for 70.

The bride is one of East Brainerd's most popular and beautiful young ladies. The groom is a conductor on the Minnesota & International railroad, running the mixed train on the Kellie-her branch. The newly married couple left today noon for the twin cities on a wedding trip and after their return will make their home for the present at 817 Mill street Northeast, in this city. They were the recipients of many and valuable presents which testify to their high standing in a large circle of friends. Among the out of town guests were Mrs. J. J. McLaughlin, of Bemidji, Miss Eva Borden, of Hinsdale, Ill., an adopted sister of the bride, and Mrs. J. C. Borden, of Ossipee.

The DISPATCH will be delivered at your door for 40 cents per month.

AMUSEMENTS

The Midnight Flyer.

Tomorrow night Ed. Anderson's melodic production, "The Midnight Flyer" will be presented at the opera house. While melo-dramatic features are many the comedy element is very strong and many laughable situations are presented. The scenic equipment is said to be most elaborate and shows a thrilling railroad scene and many other scenic effects. Popular prices 75, 50 and 25.

Maude Fealy

Playgoers of this city will have an opportunity of witnessing the art of a remarkable actress in a remarkable play, when Maude Fealy, the youngest dramatic star on the American stage, will appear at the Brainerd opera house, Friday, Oct. 10th. Maude Fealy, while still in her teens achieved for herself an enviable position in her profession, and placed her in the very top ranks, that position having been secured by the hardest kind of work and inherited ability.

Going upon the stage when but a child, she graduated rapidly from one step to another, until she occupied the position of leading woman to the world's greatest actor, Sir Henry Irving, at an age when most girls are studying in high school or college.

In "The Illusion of Beatrice," the new comedy, written especially for Maude Fealy, by the noted dramatist, Martha Morton, the talented young actress has every opportunity for displaying those remarkable talents and magnetic force which have placed her among the noted stars of the English and American stage.

**

"The Umpire" had a good house last night and was well worthy of it. Fred Mace was strictly all right as an umpire and kept the crowd in a roar. The production was well staged and gave the very best of satisfaction in every way.

Manager Fox is doing a good stunt of hustling for the opera house and will make a good showing here this winter.

**

At the Bijou the big number this week is the "Secret Service, or the Detectives and the Smugglers." There will be matinees every afternoon and a special matinee Saturday, every child being given a present.

Saturday is Bargain day at Bane's.

Voting Contest.

The following is the vote cast in the contest for box party to the Maude Fealy entertainment:

Miss Florene Merritt.....	350
Vivian Reilly.....	282
Miss Kittie Keene.....	208
Miss Carrie Morrison.....	200
Miss Rose Poppenberg.....	175
Eunice O'Conner.....	150

The DISPATCH will be delivered at your door for 40 cents per month.

TO MAKE A SAMPLE ROAD

Money was Pledged Last Night at Commercial Club Meeting for that Purpose.

WORK TO BE DONE SOON

If State Engineer Cooley can get Here Next Week to Superintend It.

The meeting of the commercial club was well attended, considering the counter attractions, and those present were there for business. After the meeting the sum of \$500 was pledged to be raised for the purpose of making a sample of good road in this vicinity. The location has not been settled yet, but will be selected with a view to making the work an object lesson in road making.

In the absence of the president and vice president Mayor Con. O'Brien was called to preside over the meeting. After the minutes were read State Engineer Cooley was called for by the president and addressed the club on the good roads question. His talk was along the lines of his previous address to the club. He showed that it cost the people of Crow Wing county 25¢ per ton per mile to haul their produce, while on good roads it would cost but one third of that. He further stated that the state of Minnesota, since its organization, had paid \$75,000,000 out for highway expenses. It had 75,000 miles of laid out roads of which about one half had had public money expended on them. This made an average expenditure of \$2,000 per mile on all roads that had been worked, and the state had practically no roads to show for the work. The cost of administration, that of superintendence, including road overseers, amounted under the present system, to from 40 to 50 per cent. In Ramsey and Hennepin counties, under expert supervision, the cost of administration was between 9 and 10 per cent. According to reports of town clerks received by him the towns had from 6 to 15 overseers for a town containing 36 sections, and in one instance there were 18. These men all had to be paid for the time in warning out the taxpayers as well as superintending a gang of three or four men. He earnestly recommended the adoption of the contract system so far as possible and hoped to see the working out of taxes abolished by law. He estimated that the state of Minnesota lost from 50 to 75 per cent. of the road taxes annually through excessive cost of administration and ineffective and ignorant work. One reason for this is that after a road is built it is not kept in repair. No work is done on it so long as it is in passable condition. It could be kept in condition at much less cost than to practically rebuild it each year.

After Mr. Cooley finished his talk there was a general discussion of the subject and the committee on good roads and drainage was instructed to call a meeting for the organization of a county good roads association.

The matter of free text books was up for discussion. President Mahlum of the board of education figured that it would cost about \$5,000 to put the scheme in operation and that the cost thereafter would be at least \$1,600 to \$1,800 per year. J. C. Congdon, of the board of education stated that there was no reason for the adoption of the system here. The board was now supplying books to all who were needy free of cost and all others at cost. The only ones who would have benefit were the transient families who could get a full supply of books and then leave town taking the books with them.

Every member of the club who expressed himself in the matter was opposed to saddling the city with any more taxes at present.

After the meeting adjourned Mr. Cooley held an informal reception and an hour or so was spent in getting acquainted and talking over the good roads movement in its different phases. It was finally decided to raise \$500 by private subscription to build a sample piece of road near Brainerd, and Mr. Cooley promised to come up and build it next week if possible.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep." —Mrs. Nancy M. Hanson, Hamburg, N. Y.

Low Priced Atlas.

An up-to-date Atlas of the Northwest and the Orient for \$1.00. The Northern Pacific Railway Company will send an Atlas of the Northwest, very complete in detail, to anyone upon receipt of price named. This is a recent compilation and data, maps, illustrations, etc., are reliable and from best sources.

Children eat, sleep and grow after taking Hollister's Rocky Tea. Brings rosy cheeks, laughing eyes, good health and strength. A tonic for sickly children. Tea or tablets, 25 cents. H. P. Dunn & Co.

BRAINERD WON

Defeated "Umpire" Ball Team Yesterday Afternoon by a Score of Six To Three

A hastily picked up team yesterday afternoon demonstrated to the Umpire base ball team that they were not so much off the stage as they were on. The visitors were a fine looking bunch of players and numbered several good men but they could not get onto the curves handed out by "Southpaw" Burns. Quinn Parker wore the mask for Brainerd. The score was 6 to 3 in favor of Brainerd.

Grove Koop umpired the game and escaped with his life although the girls of the show troupe handed him some warm ones.

No sickly women or weak men will ever regret taking Hollister's Rocky Mountain Tea. It's brought happiness to thousands of homes. Tea or tablets, 35 cents. H. P. Dunn & Co.

Fresh Salmon and Halibut at Bane's.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees.

Big Work Ahead

The work of double tracking the Northern Pacific between Moorehead and Staples, which has been going on all summer, says the Minneapolis Journal, will not be finished for two years. Double track for part of the distance has been laid, but the cuts and fills required near Hawley and Lake Park to give an easy grade are such heavy undertakings that the steamshovels and crews will have employment for twenty months at least. It is expected to work the shovels and men every day this winter that the weather will permit. The cut at Hawley, said to be the most difficult engineering feat ever tackled by the Northern Pacific engineers, is nowhere near completion, altho the shovels have been digging at it all summer. The cut is to be two miles long and forty-seven feet deep at its deepest part.

Train Load of Silk.

Minneapolis Journal: The first special train of five car-loads of silk passed thru Minneapolis last night from Seattle to New York. The silk came on the steamer, Minnesota, and was brought with a train load of fish as far as the twin cities and then a special of five cars was made up on the Burlington. The silk was in baggage cars, approximately 117,000 pounds all together.

Declares J. J. Hill Spurned Ore Lards.

Duluth, Minn., Oct. 9.—A Duluth man familiar with Mesaba range matters for the past eight years, says:

"If James J. Hill had had his own way the Great Northern would not have owned the old Wright and Davis road to Hibbing, the Wright and Davis lands nor any other ore lands on the Mesaba range. It was J. N. and L. W. Hill and John C. Eden who worked up these deals and it was only by the strongest persuasion that they succeeded in getting J. J. Hill to consent to the purchase of the Wright and Davis road and lands.

"After that L. W. Hill went on acquiring lands for the company to such an extent as he could, being all the time hampered for the want of funds. He would buy or lease property and then sell it to some other concern, perhaps at a small profit, taking at the same time a contract for the haulage of the ore.

"Then with the profits of the deal he would acquire another property. His father, James J. Hill, constantly held him down and discouraged the whole scheme. He told L. W. Hill that it would be wiser to stick to the straight transportation business than to meddle with mining properties.

"The fact is that L. W. Hill, by picking up iron ore lands without the encouragement of his father has earned more money for the Great Northern during his few years in its service than would equal one-half of the face value of its capital stock."

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulets. They operate easily, tone the stomach, cure constipation.

To Buffalo, N. Y., and return, via Nickel Plate Road, at \$13.00 for the round trip, from Chicago, on October 10th 11th, 12th and 13th. Return limit, October 19th, or by extension of ticket, October 29th. First class equipment. Individual club meals from 35¢ to \$1.00, served in Nickel Plate dining cars; also a la carte. Mid-day luncheon, 50¢. City ticket office, No. 107 Adams St., Chicago.

Blood Poisoning

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25¢. Guaranteed by H. P. Dunn & Co. druggists, Brainerd, Minn.

TESTIMONY ATTACKED.

State's Witnesses in Brouwer Murder Trial Cross-Examined.

Toms River, N. J., Oct. 11.—The testimony of the state's witnesses at the trial of Dr. Frank Brouwer for the murder of his wife was attacked in the cross-examination of counsel for the defense. Miss Una Dudley, one of the nurses who attended Mrs. Brouwer, testified that the sick woman had complained of a bitter taste of the pepperized powder prepared for her by the defendant. Counsel for the defense drew from the witness the statement that she was aware when she testified that the pepperized powders often had a bitter taste when they were allowed to stand for a considerable time.

Miss May Lippincott, who also cared

for Mrs. Brouwer in the capacity of nurse, testified that she had seen Dr. Brouwer take two powders from a section of his medicine case in which he was accustomed to keep strichnine powder and prepare a hypodermic injection which he asked her to administer to his wife. This, the witness said, she had declined to do. On cross-examination Miss Lippincott said she could not swear that the tablets were taken from the strichnine section of Dr. Brouwer's medicine case.

Dr. H. H. Cate, who signed the death certificate ascribing Mrs. Brouwer's death to acute Bright's disease, denied emphatically that he and Dr. Brouwer had acted in collusion in connection with the certificate.

DIED AN EMBEZZLER.

Drug Manufacturer Said to Have Robbed His Partners.

Philadelphia, Oct. 11.—According to a statement which the Public Ledger publishes on the authority of a member of the Wampole company, Henry K. Wampole, the drug manufacturer whose body was found recently in the East river, New York, died an embezzler of a large sum of money. It is asserted by the Public Ledger that Wampole robbed his business partners systematically of \$500,000 and maybe more. Wampole, it is stated, left paper representing several hundred thousands of dollars in about sixty banks of this state and city, and also some in New Jersey. Not until a few days prior to his death did his partners have any idea of his defalcations. Since then the story has been carefully guarded.

The assets of the Wampole company are ample to meet all obligations or demands.

How's This?

We offer One Hundred Dollars Reward for any case of Cataract that cannot be cured by Hall's Cataract Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. SHOT DEAD IN SCHOOL

OHIO TEACHER KILLED IN PRESENCE OF HER PUPILS BY REJECTED SUITOR.

MURDERER TAKES HIS LIFE

BLOWS OUT HIS BRAINS WHEN OFFICERS TRY TO PLACE HIM UNDER ARREST.

Cleveland, Oct. 11.—In the presence of sixty pupils in the South Euclid school, Harry Smith, twenty-five years old, shot to death Miss Mary Shepard, a teacher, twenty-two years old. Cornered behind the barn in the rear of his home in Warrensville two hours later, Smith shot himself through the head, dying instantly.

Four Cleveland policemen, with drawn revolvers, and supported by eight armed farmers, were about to rush on Smith when he committed suicide.

Disappointment in love is said to have been the motive for the murder. Smith, who was a fourth cousin to Miss Shepard, had wooed her for some time and recently was rejected. He brooded over this and after resigning his position, bought the revolver and went to the South Euclid school. Miss Shepard responded to his knock at the door. He walked in and for a few moments talked to her in the hall. Suddenly he drew his revolver, placed it against her head and fired twice, both bullets crashing through her brain.

Panic spread among the pupils, who rushed screaming from the building. Some of the girls fainted.

Smith leisurely walked away and boarded a car for Warrensville. The news of the crime soon became known and in less than half an hour a posse was in pursuit. Chief of Police Kohler sent four policemen to Smith's home in Warrensville. On the suburban car Smith had confessed to the conductor that he killed Miss Shepard and remarked "they will have to kill me to get me."

Reaching home only a few minutes before the arrival of the posse and the police, Smith told his father of the crime. When his pursuers came in sight the young man ran from the house to the rear of the barn.

When the posse got within a few feet of him, calling for his surrender, he placed the revolver against his head and blew out his brains.

EIGHTEEN CHINAMEN ARRESTED.

All Declare They Have Been in the United States Before.

Providence, R. I., Oct. 11.—Eighteen Chinese arrested after the capture by the United States immigration authorities of the schooner yacht Frolic, for which revenue cutters have been searching along the New England coast for the past two weeks, were held by United States Commissioner Cross in \$1,000 bail each for examination next Wednesday. All declared they had been in the United States before but that their certificates of residence had been lost, some in New York and others in the fire in San Francisco. This declaration contradicted a statement alleged to have been made by John C. Lehmann of Boston, one of the men arrested for complicity in the smuggling operations, that the Chinese brought by the Frolic from New Foundland came to that country direct from China.

Edward Junkins of Boston and William A. Duncan of Somerville, Mass., members of the crew of the Frolic, have been arrested and Lehmann was captured on shore, where he is said to have been engaged in an effort to dispose of the smuggled Chinese. Twenty-four other Chinese were passengers on the Frolic and are believed to be hiding in the Chinese quarters in this city.

CROKER SUES FOR LIBEL.

Former Tammany Chieftain After a London Magazine.

Dublin, Oct. 11.—Richard Croker has formally inaugurated the libel suit which will bring to a definite issue the question whether he used his position as chief of Tammany Hall for purposes of financial profit. The suit is against a London magazine which publishes in its current number a scathing article against the growth of so-called Tammanyism in England, incidentally detailing in alleged chapters from New York the operations of Tweed and Croker. The latter's affidavit makes a sweeping denial of any wrongdoing while head of Tammany Hall and especially denies using the organization for purposes of extortion or personal profit. The case will be tried before an Irish jury and, it is expected, will attract much attention owing to the issue over the honesty of Tammany's administration. A notable array of lawyers will be retained by Mr. Croker.

Big Grain Elevator Burned.

Suringfield, Ill., Oct. 11.—The big grain elevator of George L. Barnett & Co., at Barnet, has been destroyed by fire, together with 30,000 bushels of grain. The loss is about \$50,000, insurance, \$40,000. The fire is supposed to have been caused by sparks from a locomotive.

THE EYEBROWS.

Some Superstitions and Odd Beliefs Concerning Them.

Notwithstanding their inconspicuousness, the eyebrows have been the center of a certain amount of lore and even superstition. But the chief point at which superstition or folklore is found in this connection is in those cases, not infrequent, where the eyebrows meet. Everywhere this meeting of the brows has been held to be ominous in one way or another.

In some of our southern counties folks say that it is good to have such brows, for the possessor will never have trouble; but this is a rare interpretation. As a rule, the meeting brows are held to be of evil omen. Readers of Charles Kingsley's "Two Years Ago" will remember Mrs. Harvey's face, which had been handsome and was still clever; but the eyebrows, "continues Kingsley, "crushed together downward above her nose and, rising high at the outer corners, indicated as surely as the restless down drop eye a character self-conscious, furtive, capable of great inconsistencies, possibly of great deceptions."

In the Icelandic sagas a man with meeting eyebrows is said to be one of the dreadful creatures known as were-wolves, and the same belief has been traced in Denmark and Germany; while in Greece, says Mr. Baring Gould, they are a sign that a man is a vampire. In horror there is little to choose between vampires and were-wolves. A fanciful reason which has been given for these superstitions is that the meeting brows resemble a butterfly, "the familiar type of a soul ready to fly off and enter some other body." This seems tolerably far fetched.

In Hungary gypsy women and men whose eyebrows grow together are supposed to have in special degree the power to enchantment, and as illiterate folk have a great dread of such mysterious powers, especially as they may be supposed to be directed against the well being or happiness of their children, it need hardly be said that a man whose brows meet is not a popular person. Even now there are parts of England where a belief in witchcraft still lingers, and not so very long ago in Northumberland there were people who regarded a person whose eyebrows met as a witch or warlock.

In the north of Aberdeenshire, according to the late Rev. Walter Gregor, who was a very competent authority on Scottish lore and customs, a "closebrow man"—that is, one whose eyebrows meet—was regarded as being immoral. Elsewhere in Scotland one with "close brows" was regarded as unlucky to be met as "first fit," while other folks went a good deal further and regarded the unlucky possessor of "close brows" as one foredoomed to be hanged.—London Globe.

Workmen and Police Clash.

Ufa, Russia, Oct. 11.—While the police of this town were arresting an agitator in the Svenski factory they were surrounded and attacked by a large number of workmen. After a short fight the workmen were beaten off. Several guards were killed or wounded and the factory is now occupied by troops.

Nervous Prostration.

The symptoms of nervous prostration well illustrate the fact that there is not a single organ in the human body but is entirely and absolutely dependent on the nervous system for the energy and power by which its functions are performed.

You feel tired, weak and worn out, lose interest in life, have no appetite and poor digestion, disorders of liver, kidneys and bowels, you cannot sleep, your head aches and you feel discouraged and despondent.

Dr. A. W. Chase's Nerve Pills cure nervous prostration and exhaustion in the only way it is possible to really cure them—by actually forming nerve force to revitalize the wasted nerve cells.

It may require a dozen or more boxes of this medicine to bring about a thorough restoration of your health, but you can be certain that each dose is, at least, doing you some good, and the cure is bound to be natural and thorough. Dr. A. W. Chase's Nerve Pills, 50c a box at all dealers, or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.
